Summary

Computer Science student at PJATK with over a year of software engineering work experience (OOP: C#, Java). Confident as a full-stack developer with React.js and Redux. Proficient in Docker and I GCP-certified Associate Cloud Engineer. In free time really interested in learning Go. I'm open and happy to learn new technologies. Advanced english speaker with CAE Advanced English certificate (C1 level).

Skills

Java • Spring Boot • C# • .NET Core • TypeScript • React • SQL • Go

Work Experience

Junior Software Developer
Feb 2024 – Nov 2024 • 9 mos

Atinea sp. z o. o. • Part-time

Warsaw, Poland

Technologies: C# • .NET • TypeScript • React • MariaDB

Working in 3 different projects during the time, all of them were mostly related to web development. The first one was a web app utilizing Java 8, Spring Framework and JSP(2 months). Second project was a facility management desktop app in C# and .NET Framework with WCF(4 months) and the last one was a web application, where I worked mostly on the frontend using TypeScript with React and Redux(2 months).

Software Engineer Intern
Nov 2024 – present

Grid Dynamics • Internship

Warsaw, Poland

Technologies: Java • Spring Boot • Spring Data JPA • Spring Security • JUnit

Participating in Java internship program, working on a capstone project within a team of interns. I'm learning and working on a microservice with the following technologies: Java 21, Maven, Spring Boot, JDBC, JPA, Hibernate, Docker, PostgreSQL..

Education

Bachelor's degree: Computer Science
Oct 2023 – Jan 2027 • 3 yrs 3 mos

Polish-Japanese Academy of Information Technology

Warsaw, Poland
